Hi Keith, thank you for the new pictures, I do hope that all the work they have done will prove to be worth while and people make use of all the new things they have done and enjoy the walks etc.. Now that spring is in the air and hopefully the weather will be nice for walks.Maybe I will get the cnace to have a walk there myself. I am working on the sitting bit, it is still a bit hard and I am not to sit to much as yet. I hope you are enjoying your retirement, once the weather is better you will be able to get out more. As always thank you for taking the time to post the photos for everyone. Ann
