Hi Betty, as always the photos are great, I always love to see pictures of home I love the country, I am not a city person, will do anything to stay away from them. I hope your holiday has left you refreshed and ready for the winter. I can't believe that in less than 2 weeks we will be into spring, and looking forward to it. I will have to sit and learn how to scan my pictures into my lap top I have noat done that as yet. I am slowly getting used to the lap top. Thank you as always Betty. Take care Ann
