Well 'twat' is clearly a safe bet Keith.. but the code for the other more obvious physiological and scatological references has not yet been updated..

....if you're unable to get your point across in the meantime, try spacing the letters maybe, e.g. Green C ockatoo or maybe take a leaf from the spammers handbook.. Gr33n C0ckat00 etc etc..

I'll be back working on the site this weekend so I'll try to get that fixed for you old chap..
